Honoring Resilience: Learning from the Holocaust and the Dakota Exile

An intensive, inquiry-based seminar for educators focused on human rights lessons from the past to forge a new path into the future

St. Cloud State U., St. Cloud, MN

July 12 - 18, 2020

From Sunday evening through Saturday morning, participants will explore the roots of antisemitism and anti-Indian sentiment by engaging with primary source materials, listening to personal testimonies, and visiting relevant sites. Day trips include a visit to Mt. Zion Temple (St. Paul) and significant Dakota sites (Minneapolis).

Teachers will experience best practices through inquiry and writing-based pedagogies for teaching about the Holocaust and other genocides. The seminar examines past and present social justice issues, with a focus on resilience and hope for the future. Participants will receive resources and create a brief action plan for implementing Holocaust and genocide education in their classrooms.

“Every day of the week includes meaningful reflection...you create new friends and colleagues along the way.”
